International Health Insurance Forum 2024 Southeast Asia event

8 - 10 May 2024
Parkroyal Beachroad
Singapore

A new paradigm for health insurance

Key components of digital transformation for a sustainable business model

Welcome to our second event in Southeast Asia

The art of good conference production

The art of good conference production relies upon relevant content, engaging speakers, first class facilities and ensuring the event not only educates and informs the audience but provides value for money.

Beyond that, it should offer great networking and be an enjoyable experience for all involved.

The rise of video conference events during and since the Covid-19 pandemic provided some innovation but often the technology is not used to its best and audience attention and engagement is poor with reduced networking success.

There are very few in-person events dedicated to health insurance as a health system financing tool. With our seven events held around the world we have changed this.

Our format

In 2018 we believed that a new format was required to bring alive health insurance conferences and make them relevant to a wider audience. We believe that smaller, more intimate events offer greater, more valuable networking and knowledge transfer opportunities. We saw this format succeed at a number of events in Europe in 2016 and 2017.

Our events have been changing the *status quo* of in-person events which have re-emerged in most parts of the world as travel restrictions ended.

Whilst the themes should be relevant to the broader region, speakers should have global experience to bring insights from other parts of the world.

Our events are “quality” not “quantity” events. Importantly, they are “how to do” not “what to do” events.

Our events so far

Since 2018 and despite the pandemic, we have produced events in UAE, Bahrain, Kenya, Ghana, Rwanda, Nigeria, South Africa Panama and Singapore. This Southeast Asia event will be our 15th event in total and our 2nd in the region.

Why Singapore?

Singapore itself demonstrates a healthcare financing system that is diverse, includes social and private funding mechanisms as well as embedding a long-term approach.

Geographically, Singapore is well situated to attract delegates from other SE Asia mainland and island nations who are at various stages in the journey to achieving UN SDG 3.8 – Universal Health Coverage. It is also the regional base for many international companies involved with health insurance.

The themes

Most countries have markedly different approaches to health system financing using social health insurance, private health insurance or a combination of both. Regardless of the approach, payers of healthcare, private or public, are all facing pressure from rapidly rising healthcare costs whilst the public faces higher out of pocket costs or higher premiums for health cover. This event will focus on the **key components in digital transformation** that payers must adopt and employ in order to keep their operations sustainable.

A different calibre of speaker

Several of our speakers will have experience of speaking at conferences around the globe and will generally be high level executives who can bring their globally acquired experience to our audience.

But we can equally learn from regional speakers who have experience of their own markets which have different challenges. The opportunity for knowledge transfer between speakers from outside the region and within the region is enormous.

The audience

We expect the forum to be attended by insurers and reinsurers, intermediaries, regulators, IT firms, financiers, telcos, pharmacos and healthcare providers.

I hope our approach will inspire you!

Robin Ali
Head of Program Content
International Health Insurance Forum series

Your program

This is a draft program under ongoing development. Speakers are being added regularly.

8 May 2024

1900 - 2200 Evening reception (complimentary for all Forum attendees)
